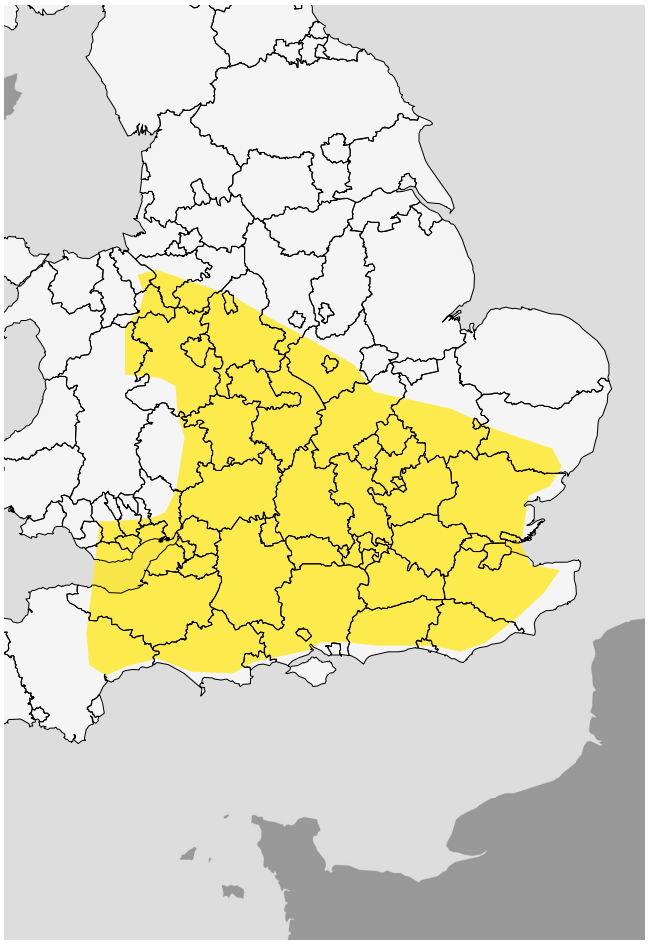
Yellow warning
Ice

Between
17:00 Tue 19 Nov 2024 and
10:00 Wed 20 Nov 2024



Icy patches are expected to form this evening and overnight.

What to expect

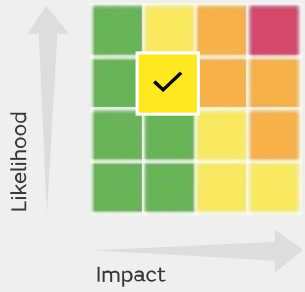
- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

Rain, sleet and snow will continue to clear southwards across England and Wales with clearing skies to follow. Temperatures are expected to fall below or close to freezing quite widely across the warning area with icy patches forming on untreated freezing surfaces.

What should I do?

Keep yourself and your family safe when it is icy. Plan to leave the house at least five minutes earlier
than normal.



✓ Medium likelihood of low impacts

Issued at 15:12 Tue 19 Nov, 2024

Yellow warning
Ice

Between
17:00 Tue 19 Nov 2024 and
10:00 Wed 20 Nov 2024

Further Details (continued)

Not needing to rush, reduces your risk of accidents, slips, and falls.

If you need to make a journey on foot, try to use pavements along main roads which are likely to be less slippery. Similarly, if cycling, try and stick to main roads which are more likely to have been treated.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

Be prepared for weather warnings to change: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.
